

SAERfix®

ADHESIVES

Spray adhesives have now become a thing of the past! **SAERfix®** is the self-adhesive solution for anyone who wants to save time, material, and process costs when working with multiaxial fabrics. It's compatible with all common resin system, has an improved adhesive formula and offers better resistance to osmosis. Don't spray it – just drape it!

- ✓ **Self-adhesive: Time savings of over 50% compared to a spray can**
No time wasted for applying adhesive. Reduces work steps and overall process costs.
- ✓ **Compatible with all common resin system**
Works with UP, EP and VE resins. No need to keep double stock. No risk of confusion. Suitable for RTM and vacuum infusion.
- ✓ **Innovative adhesive formula for easier draping and up to 10 times longer hold**
Improved, long-lasting self-adhesive properties. Ideal for complex geometries.
- ✓ **Sustainable for the environment and for your team**
No environmental pollution, no aerosols, no strong odors due to spray mist. Solvent-free and non-hazardous to water.
- ✓ **Dimensionally stable for vertical and overhead applications**
Uniform adhesive distribution ensures reliable fiber fixation while allowing re-positioning during lay-up. Long-lasting tackiness prevents fiber slippage and wave formation during handling, supporting reproducible laminate quality.
- ✓ **Improved resistance to osmosis**
2 x longer resistance in warm water at 140 °F. Improved long-term performance of the laminate.

TECHNICAL DATA		SAERfix®
Resin compability		Polyester / Vinyl Ester / Epoxy
Process		RTM, Light RTM, Vacuum infusion, VAP
Finish		Both sides possible
Compatible materials		Glass, Carbon or Flax NCF, SAERcore, SAERflow, Fleece and complex
Standard adhesive weights*	On Carbon and Flax NCF	0.15 oz/yd ²
	On Glass, SAERcore, SAERflow and complex	0.24 oz/yd ²
Width	Up to 50 in Individual widths and lengths on request	

* SAERfix adhesive weight available from 0.15 to 0.29 oz/yd² on request

Product availability and specifications may vary by region. Please contact us for details.
